

ContentCast™ Inline Content

No-cost product content directly from the manufacturer

Overview

Inline Content, part of the ContentCast™ suite of products provided by 1WorldSync Content Solutions, offers rich manufacturer content - free of charge - to display right on your site's product detail page. There is no need for your visitors to click on anything or navigate anywhere else (no pop-ups). All content is directly inline on the product page. In this way, Inline Content guarantees 100% visitor engagement.

Inline Content may be as simple as a blurb of text describing the product, or as rich and attractive as a full spread of marketing copy with supporting imagery and videos, photo galleries, datasheets, and more. Syndicating this manufacturer content to your product pages is free.

Content made available through ContentCast Inline Content service is currently being syndicated to product detail pages on the sites of several top name retailers. One of these retailers recently reported a 125% sales increase while using Inline Content.

Implementing Inline Content on your site's product pages involves adding just one snippet of code. Simple. Done.

Benefits

- Easily receive up-to-date product content
- Add substantial additional value and “stickiness” to your product pages
- Dramatically reduce the internal or third party overhead needed to generate product content for your pages
- Simple to integrate within your product pages
- It's FREE!

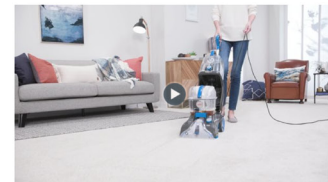

Deep clean your carpets, upholstery and car interiors. Leaves your carpets dry in less than 1 hour.*

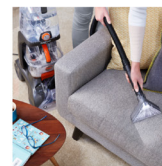

Extra Large Tank for a Longer Clean

Not only powerful, the Rapid Power Refresh has an extra large tank capacity so you can clean for longer.

Features & Benefits

Above Floor Cleaning
With the stretch hose and wash tool, you can effectively clean above floors, including upholstery, stairs and car interiors.

Quick Dry
Carpets are dry in less than 1 hour when using in quick clean mode*. Leaving your carpets dry and smelling fresh.

Automix Technology
Our automatic cleaning system takes the hassle out of measuring solution and provides the correct mix of solution and water for the best cleaning results.

Twin tanks
The Twin Tanks ensure clean and dirty water is kept separate, meaning you'll only ever put clean water and solution into your carpets.

The More Hygienic Way To Wash Your Carpets*
Embedded with antimicrobial treatment which prevents the growth of odour causing bacteria, mould and mildew.

Crevice Device
Ideal for cleaning tight narrow spaces for a thorough home clean.
